I really enjoyed this. It was fun but also it was a teaching moment."

We got to drive the ATV around (wearing drunk goggles) that was showing us how driving under the influence could really change our lives and lives of everybody close to us.

When they did the act at the end with the collision and some people died, some people got carried by helicopter and some people got carried in body bags.

It really makes you think, and it really makes you realize that this is what you’re gonna go through if you decide to make these decisions.

I took D.A.R.E classes in 6th grade but this experience made more of an impact in one day than the entire year of D.A.R.E.

It really made me think about choices and the people around me...
